

Video calling with ADHDcentraal with Android Smartphone

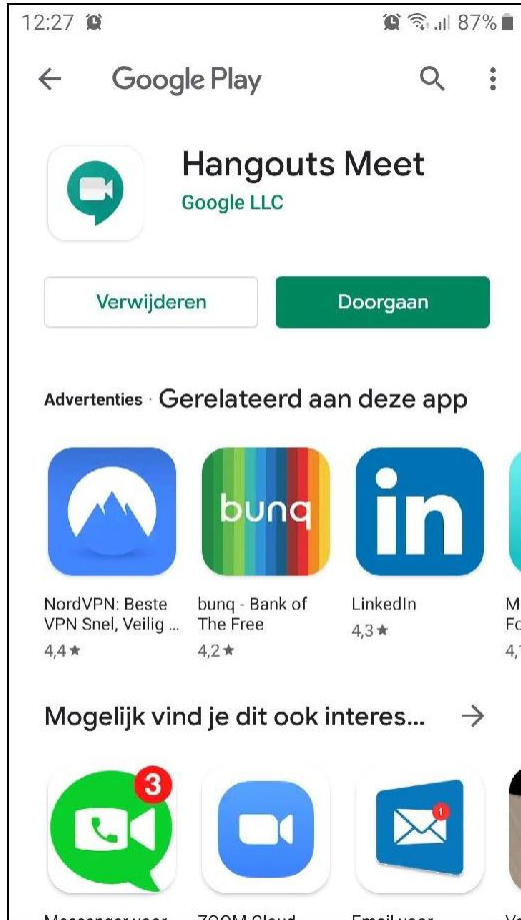

- 2 days before your appointment, ADHDcentraal will send you a link for video conferencing with your practitioner. Click on the link and check if your camera and microphone are working properly. After that you can close the app.
- From Android Smartphone
- When your appointment starts: you will receive an e-mail from your practitioner to start the video call.
- Click on the "Meeting link" (e.g. "meet.google.com/xns-yocm-cfh") in the email from your practitioner.

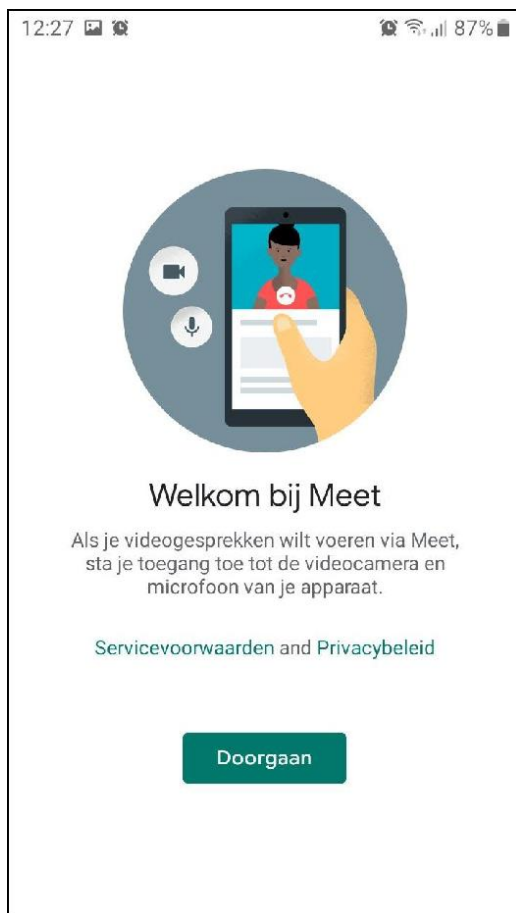

- If this is the first time you are going to use Meet to video call, you will be directed to the Google Play Store to install Hangouts Meet.
- Tap **[Install]**.

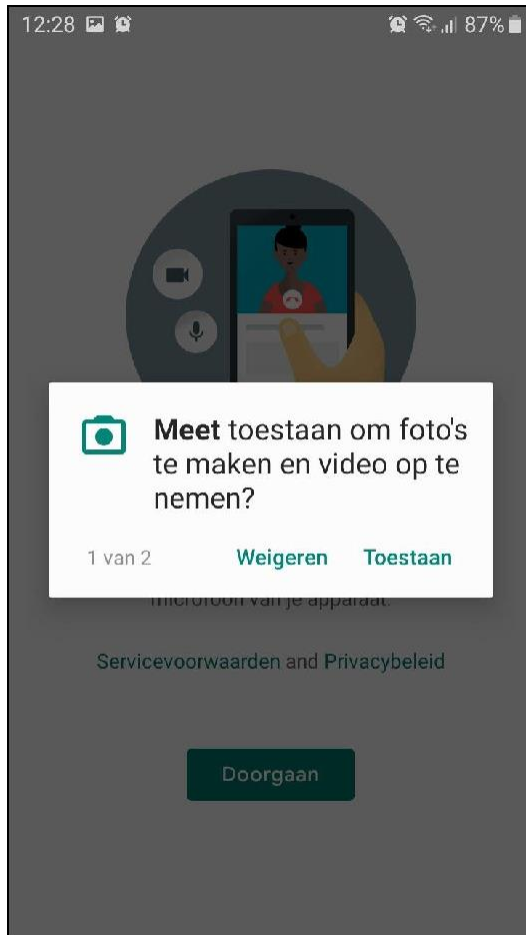

Tap [Continue].

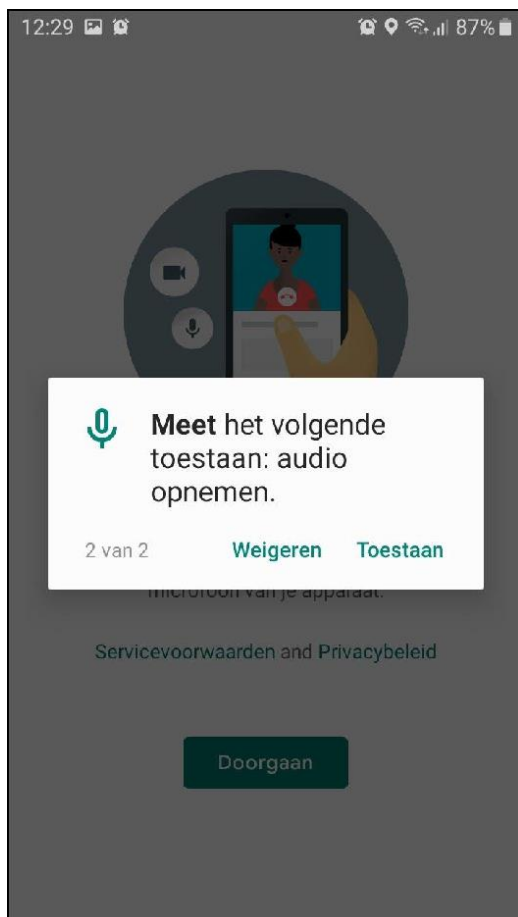

• Tap [Continue].

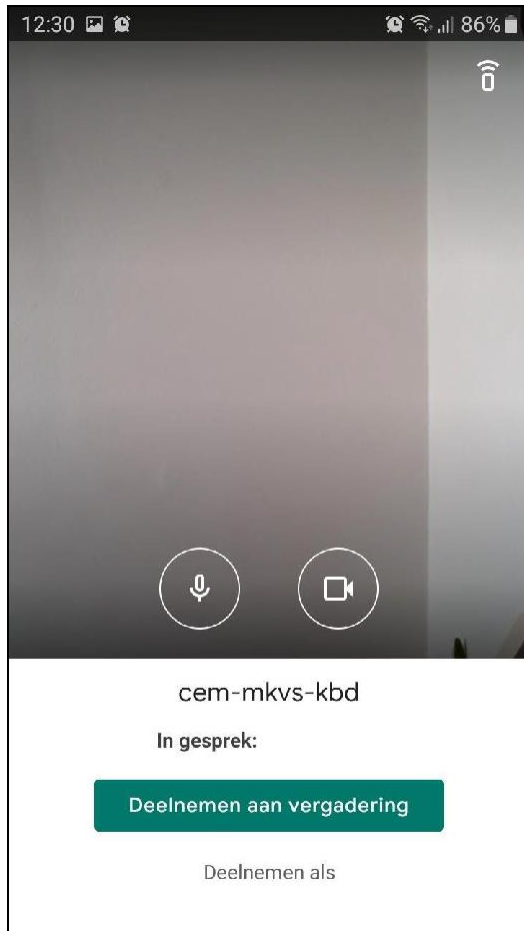

Tap **[Allow]** to use your camera.

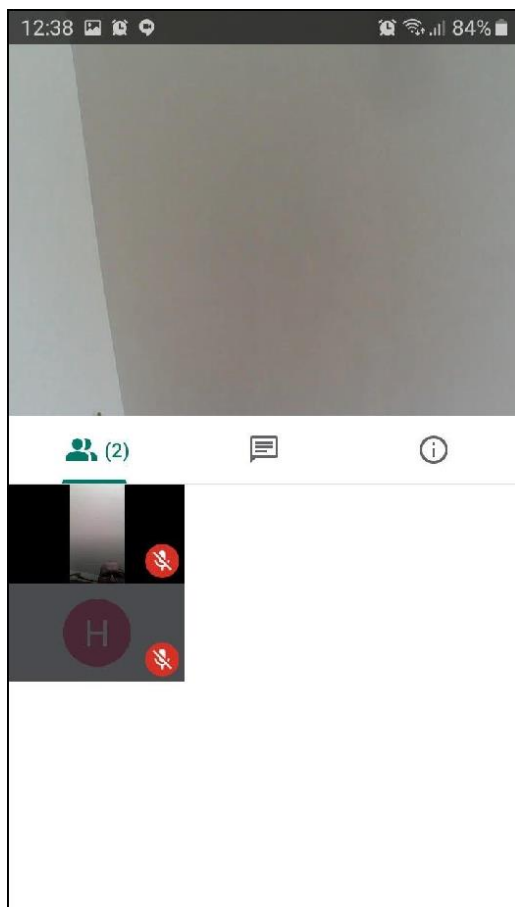

- Tap **[Allow]** to use your microphone.

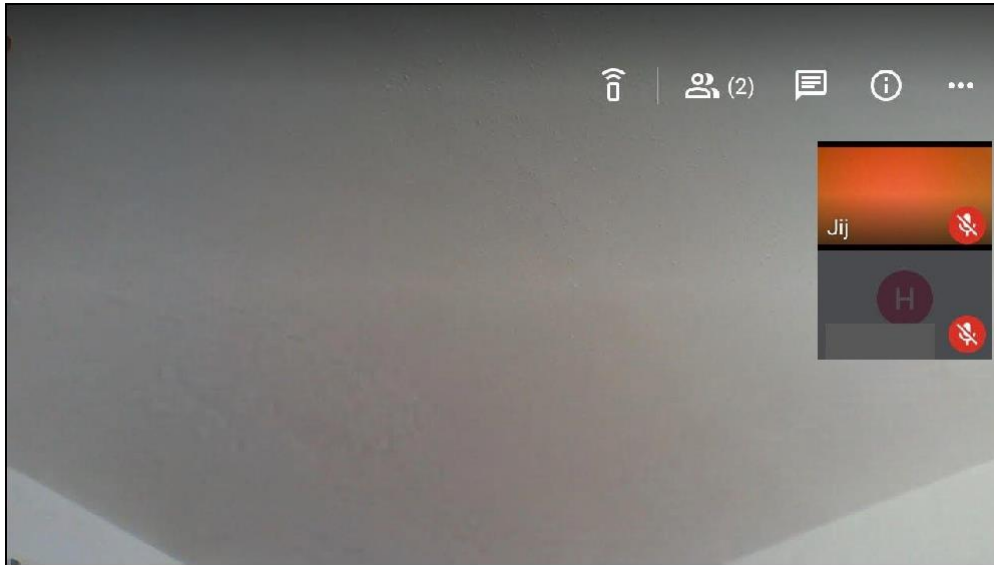

Tap **[Join Meeting]**.

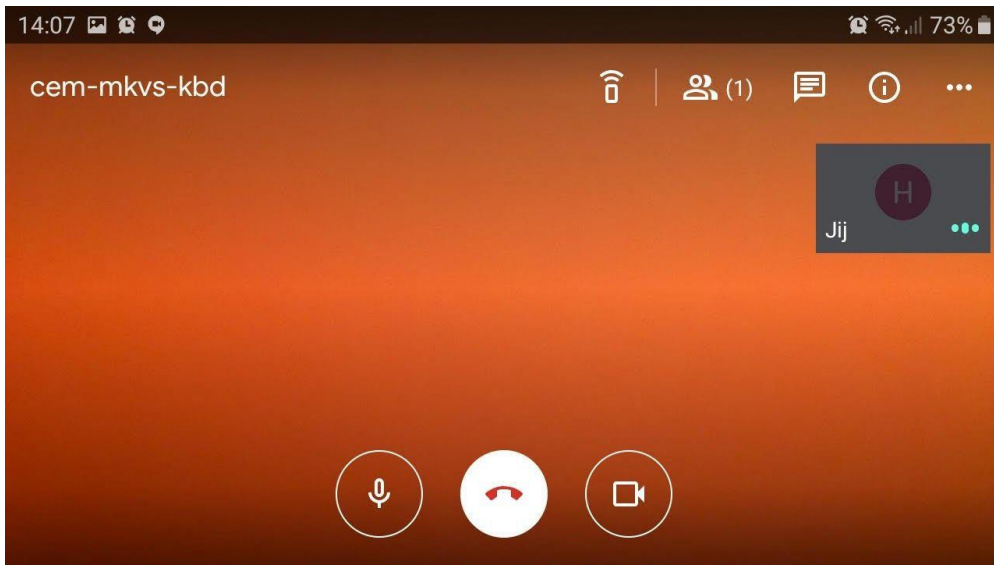

- You are now participating in an appointment.

Tip : If you turn the phone a quarter turn you get a nicer picture.

- Tap on the screen the icon to exit the meeting and tap the red telephone icon.

Technical problems

Is video calling not possible for technical reasons? Please inform your therapist about this. He or she will call in the help of the ICT department of ADHDcentraal.
