

Video calling with ADHDcentraal via iPhone or iPad

- 2 days before your appointment, ADHDcentraal will send you a link for video conferencing with your practitioner. Click on the link and check whether your camera and microphone are working properly. After that you can close the window.
- When your appointment starts: you will receive an e-mail from your practitioner to start the video call.
- Click on the "Meeting link" (e.g. "meet.google.com/xns-yocm-cfh") in the email from your practitioner.

Beste Feline

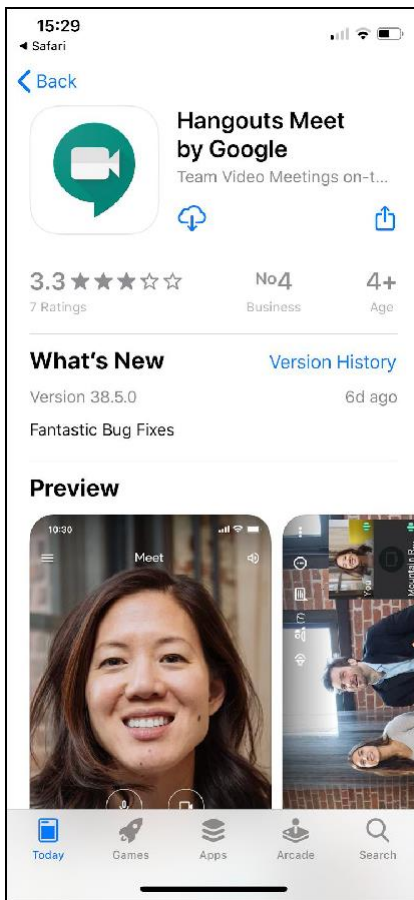

Wij hebben om 15:40 een behandelafpraak.
Zoals afgesproken zal deze afspraak via videobellen plaatsvinden. Ik zal u ook bellen om het videobellen te starten en eventuele vragen te beantwoorden.

Klik op onderstaande link om deel te nemen aan de afspraak via videobellen.

Hartelijke groet,
de Behandelaar

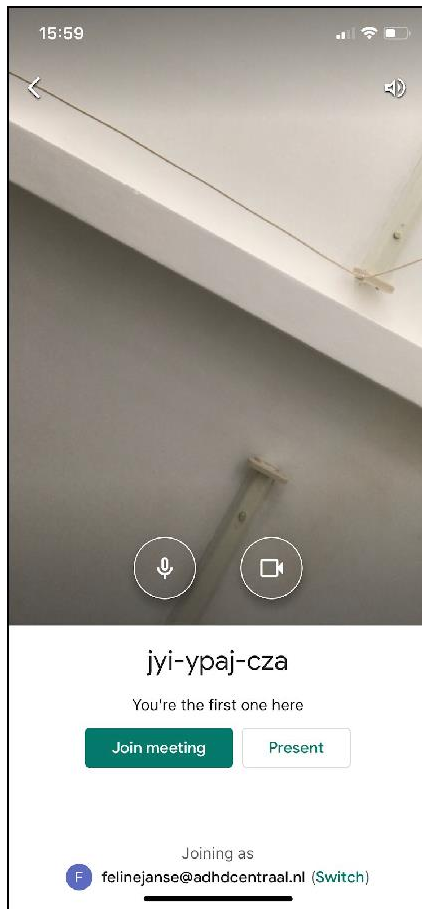

- You may be redirected to the Hangouts google Meet app in Apple's App Store through a browser window. Click on the blue "Download" button to install Meet.

- You may be asked to activate your camera and microphone. Click on the green "Continue" button. Click twice on "OK" or "Allow" and give Meet permission to use your camera and microphone. And log in with an account.

- Enter your name in the window that appears and click on the green "Join Meeting" button.

- You may have to wait a moment while the practitioner grants you access. You will then automatically be taken to the video room.
- You are now participating in the video conference.

Technical Problems

Is video calling not possible for technical reasons? Please inform your therapist about this. He or she will call in the help of the ICT department of ADHDcentraal.
